Abdominal Imaging

Volume 18
1993

Editors-in-Chief

Morton A. Meyers
School of Medicine, Health Sciences Center, SUNY at Stony Brook, Stony Brook, NY 11794, USA

Gary G. Ghahremani
Evanston Hospital–Northwestern University, 2650 Ridge Avenue, Evanston, IL 60201, USA

Section Editors

Joshua A. Becker
Brooklyn, New York, USA
Genitourinary Radiology

Morton A. Bosniak
New York, New York, USA
Genitourinary Radiology

Richard M. Gore
Evanston, Illinois, USA
Book Reviews

E. Maureen White
Evanston, Illinois, USA
Abstracts of Literature

Editorial Board

Emil Balthazar
New York, New York, USA

Clive Bartram
London, UK

Michael E. Bernardino
Atlanta, Georgia, USA

H. Joachim Burhenne
Vancouver, B.C., Canada

Ludovico Dalla-Palma
Trieste, Italy

N. Reed Dunnick
Ann Arbor, Michigan, USA

Michael F. Federle
Pittsburgh, Pennsylvania, USA

Michiel A.M. Feldberg
Utrecht, The Netherlands

R. Felix
Berlin, FRG

Joseph T. Ferrucci, Jr.
Boston, Massachusetts, USA

David Gelfand
Winston Salem, North Carolina, USA

Jan H. Göthlin
Göteborg, Sweden

Nicholas Gourtsoyiannis
Crete, Greece

Man-Chung Han
Seoul, Korea

Robert R. Hattery
Rochester, Minnesota, USA

R. Brooke Jeffrey
Stanford, California, USA

Igor Laufer
Philadelphia, Pennsylvania, USA

Errol Levine
Kansas City, Kansas, USA

Marc S. Levine
Philadelphia, Pennsylvania, USA

Alexander R. Margulis
San Francisco, California, USA

Masakazu Maruyama
Tokyo, Japan

Didier G. Mathieu
Paris, France

Bruce L. McClennan
St. Louis, Missouri, USA

Alec J. Megibow
New York, New York, USA

Roberto Passariello
Rome, Italy

Cesar S. Pedrosa
Madrid, Spain

J.W.A.J. Reeders
Amsterdam, The Netherlands

Reed P. Rice
Durham, North Carolina, USA

Hikoo Shirakabe
Ichikawa City, Japan

David H. Stephens
Rochester, Minnesota, USA

William M. Thompson
Minneapolis, Minnesota, USA

Pierre-Jean Valette
Lyon, France

Jeffrey Weinreb
New York, New York, USA

Robert K. Zeman

Subject Index

(A = Abstract)

Abdomen
—, computed tomography of 88, 237, 286, 336
—, magnetic resonance imaging of 88, 95, 205, 211, 215
—, spread of disease in subperitoneal space of 117
—, ultrasonography of 280
Abdominal aortic aneurysms
—, presenting as renal colic (A) 308
Abdominal trauma
—, computed tomography in evaluating children with (A) 408
—, gastrointestinal tract perforation in children with (A) 101
—, in cases of multiple trauma, ultrasonography in (A) . . 408
—, ultrasound as indicator for laparotomy in (A) 408
Achalasia
—, hiatal hernia and 7
—, manometric and radiologic correlation in (A) 304
Acquired immunodeficiency syndrome (AIDS)
—, hepatic bacillary angiomatosis in patient with 336
—, primary esophageal lymphoma in 223
Actinomycosis
—, abdominal, diagnosis of 286
—, of retroperitoneum 295
Acute acalculous cholecystitis
—, complication in trauma (A) 306
Acute contrast enema
—, used for large bowel obstruction (A) 198
Adenocarcinoma
—, nonresectable, MRI assessment of (A) 199
Adenoma
—, villous, of common bile duct 245
Adenomatous hyperplastic nodules
—, in cirrhotic liver, management of 50
Adenomatous polyposis
—, familial, rectal cancer risk in older patients with (A) 305
Adrenal lymphoma
—, magnetic resonance imaging of 95
Adrenal tumors
—, accuracy of computed tomography in predicting (A) 407
Agenesis
—, of pancreas 141
—, renal, duplicated Mullerian duct remnants associated with 193
Air
—, introduced into intestinal loops before MRI 205, 211
Ampulla of Vater carcinoma
—, endoscopic ultrasonographical preoperative staging of (A) 307
—, sonographic and CT diagnosis of 237
Anal endosonography
—, of patients with obstructed defecation (A) 405
Anastomotic leak
—, following esophagogastrectomy (A) 100
Angiography
—, compared with other techniques in staging hilar cholangiocarcinoma (A) 307
—, magnetic resonance, of renal arteries (A) 407
—, of hepatocellular carcinoma with or without cirrhosis 168
—, of hilar cholangiocarcinoma (A) 20
—, of liver tumor 156
—, of sclerosing hepatocellular carcinoma 347
—, of spleen with peliosis 283
—, staging of tumors in pancreatic head by (A) 307
—, three-dimensional time-of-flight technique (A) 407
—, vitelline artery in Meckel's diverticulum characterized by 15
Antegrade balloon dilation
—, tuberculous stricture of urinary tract treated by . . . 186
Appendicitis
—, acute, roundworm obstruction misdiagnosed as . . . 274
—, intestinal lymphangiectasia simulating 27
—, nonsteroidal anti-inflammatory drugs and (A) 196
Barium enema
—, air contrast, after incomplete colonoscopy (A) 305
—, colonic lymphoma treated by 376
—, compared with computed tomography in treating lymphoma 376
—, direct invasion of transverse colon by cecal tumor found by 20
—, in elderly (A) 405
—, management of colorectal perforation caused by (A) 305
—, rectal lymphoma treated by 376
—, sonographic image degradation after (A) 406
Barium suspension
—, compression filming with 320
Bezoars
—, in small intestine, ultrasonographic diagnosis of . . . 271
Bile duct
—, carcinoid tumor in 242
—, fascioliasis in 261
—, portal vein hypertension and varices in (A) 306
—, role of anatomical variation of in biliary stone diseases 145
—, villous adenoma of 245
Bile duct obstruction
—, biliary endoprosthesis in 70
—, carcinoma of ampulla of Vater and 237
—, ultrasonography of 76
Bile leakage
—, as complication of liver biopsy in liver transplant . . 258
Biliary ascariasis
—, cholangiocarcinoma and 76
Biliary strictures
—, liver transplantation complicated by (A) 200
—, secondary to hepatocellular carcinoma 70
Biliary tract calculi
—, sclerosing cholangitis and (A) 200
Biopsy
—, fine needle versus cutting needle (A) 406
—, liver, bile leakage as complication of 258
—, of polyps in duodenal bulb (A) 405
Bladder
—, calcified tumors of (A) 201
Bladder hemangioma
—, magnetic resonance imaging of 97
Bladder neoplasms
—, MRI and air insufflation for local staging of (A) . . . 308
Book reviews
—, atlas of surgical endoscopy 105
—, diagnostic and therapeutic ERCP 410
—, diagnostic imaging of AIDS 202
—, double contrast gastrointestinal radiology 309
—, gastrointestinal emergencies 410
—, gastrointestinal infection and AIDS 309
—, human cross-sectional anatomy 409
—, imaging of AIDS 309
—, inflammatory bowel disease 104
—, interventional radiology 104, 202
—, large intestine: physiology, pathophysiology, and disease 310
—, MRI primer 409

—, textbook of gastroenterology . . . 203
—, ultrasonography . . . 105
Bowel obstruction
—, magnetic resonance imaging in . . . 131
Budd-Chiari syndrome
—, correlation of pathology and imaging studies of . . . 329
Cecal volvulus
—, computed tomography whirl sign of . . . 288
Chest pain
—, noncardiac causes of . . . 220
Cholangiocarcinoma
—, correlation of tumor position and survival of . . . 66
—, hilar, staging by different techniques (A) . . . 307
—, hilar, subtypes of (A) . . . 200
—, ultrasonography of . . . 66
Cholangiography
—, compared with ultrasonography in cholangiocarcinoma survival . . . 66
—, laparoscopic, results and indications (A) . . . 406
—, low junction of cystic duct evaluated by (A) . . . 407
Cholangitis
—, sclerosing, biliary tract calculi and (A) . . . 200
Cholecystectomy
—, laparoscopic, imaging of complications of . . . 150
—, laparoscopic, use of abdominal ultrasonography before (A) . . . 406
Cholecystolithiasis
—, role of anatomical variation of pancreatobiliary ducts in 145
Choledochal cyst
—, endoscopic ultrasonography of . . . 29
Choledocholithiasis
—, role of anatomical variation of pancreatobiliary ducts in 145
Cholescintigraphy
—, of gallbladder before and after ESWL . . . 325
Cirrhosis
—, adenomatous hyperplastic nodules and . . . 50
—, hepatic arterial resistive index and . . . 61
—, hepatocellular carcinoma with and without . . . 168, 344
—, portal hypertensive gastropathy in (A) . . . 100
—, regenerative nodules in (A) . . . 102
Colitis
—, ischemic, associated with nonsteroidal antiinflammatory drugs (A) . . . 405
—, ischemic, patterns and prognosis of (A) . . . 198
—, ulcerative, colorectal cancer risk in patients with (A) 198
—, ulcerative, magnetic resonance imaging of . . . 371
—, ulcerative, metachronous colonic lymphoma and . . . 369
Colon
—, MRI after air distention of . . . 211
—, transverse, invasion by cecal tumor of . . . 20
Colonic carcinoma
—, Crohn's disease and (A) . . . 198
—, incidence and mortality of (A) . . . 102
—, mucinous carcinoma as (A) . . . 305
Colonic lymphoma
—, complicating chronic ulcerative colitis . . . 369
—, correlation of computed tomography and barium enema 376
Colonoscopy
—, accuracy in detecting colorectal polyps (A) . . . 198
—, incomplete, air contrast barium enema after (A) . . . 305
Colorectal cancer
—, ulcerative colitis and risk of (A) . . . 198
Colorectal perforation
—, caused by barium enema (A) . . . 305
Colorectal polyps
—, accuracy of colonoscopy in detection of (A) . . . 198
Common bile duct
—, endoscopic ultrasonographical preoperative staging of (A) . . . 307
—, role in formation of choledochal cyst . . . 29
—, villous adenoma of . . . 245
Compression filming
—, high-density barium suspension used with . . . 320
Computed tomography
—, accuracy in predicting adrenal tumors (A) . . . 407
—, assessment of T-factor in hepatocellular carcinoma by 247
—, compared with barium enema in treating lymphoma 376
—, compared with other techniques in diagnosis of liver metastases (A) . . . 305
—, diagnosis and treatment of secondary urinoma to surgical spinal fusion with . . . 292
—, evaluation of children with blunt abdominal trauma using (A) . . . 408
—, low versus high osmolality contrast media in . . . 180
—, of abdominal actinomycosis . . . 286
—, of ampulla of Vater . . . 237
—, of blunt hepatic injuries (A) . . . 102
—, of calcified bladder tumors (A) . . . 201
—, of cecal volvulus . . . 288
—, of colonic lymphoma . . . 376
—, of complications of laparoscopic cholecystectomy . . 150
—, of cystadenoma of seminal vesicle . . . 298
—, of esophageal mucocele . . . 13
—, of esophagus . . . 223
—, of focal nodular hyperplasia of liver . . . 32
—, of focal periportal liver steatosis . . . 39
—, of gastric perforation caused by ulcer . . . 318
—, of hepatic fascioliasis . . . 261
—, of hepatic hydatid cyst . . . 234
—, of hepatocellular carcinoma with or without cirrhosis 168
—, of hilar cholangiocarcinoma (A) . . . 20
—, of liver . . . 336
—, of liver, pathologic correlation with . . . 329
—, of liver tumor . . . 156
—, of main renal vain invaded by transitional cell carcinoma . . . 390
—, of pancreas . . . 141
—, of pancreatic plasmacytomas . . . 323
—, of pyonephrosis . . . 82
—, of rectal lymphoma . . . 376
—, of retroperitoneum with actinomycosis . . . 295
—, of sclerosing hepatocellular carcinoma . . . 347
—, of spleen with peliosis . . . 283
—, of stomach . . . 232
—, of transverse colon . . . 20
—, of tumor thrombus in inferior vena cava . . . 290
—, of ureteral obstruction . . . 88
—, of uterine myolipoma . . . 402
—, prediction of gallstone solubility with (A) . . . 102
—, refined, extent of prostatic cancer assessed by (A) . . 408
—, staging of tumors in pancreatic head by (A) . . . 307
Computerized tomographic portography
—, hepatic tumors evaluated by (A) . . . 306
Congenital anterior urethral diverticulum
—, characteristics of . . . 396
Contrast media
—, air used as, in gastrointestinal tract . . . 205, 211
—, gadolinium-DTPA used as . . . 215
—, in retrograde pyelography, reaction to (A) . . . 407
—, in voiding cystourethrography, reaction to (A) . . . 407
—, osmolality effect of . . . 180
—, Thorotrast as, hepatic angiosarcoma induced by . . . 78
Contrast radiology
—, water-soluble, in management of small bowel obstruction (A) . . . 304
Crohn's disease
—, colonic carcinoma and (A) . . . 198
—, mucosal changes in (A) . . . 405

—, patterns of recurrence in (A) . . . 101
—, pneumatosis intestinalis in (a) . . . 101
—, small bowel strictureplasty for . . . 366
Cystadenoma
—, of seminal vesicle . . . 298
Cystic disease
—, renal, in hemodialysis patients (A) . . . 201
Cystic duct
—, cholangiographic evaluation of low junction of (A) . . 407
Cystourethrography
—, voiding, reaction to contrast media in (A) . . . 407
Defecography
—, compared with anal endosonography (A) . . . 405
—, techniques of . . . 131
Doppler technique
—, isolated gastric varices detected by . . . 229
Duodenal bulb
—, biopsy of polyps in (A) . . . 405
Duodenal fistula
—, caused by hepatic hydatid cyst . . . 234
Duplex Doppler sonography
—, of hepatic artery, severity of cirrhosis and . . . 61
Echinococcosis
—, hepatic, fistulized to duodenum . . . 234
Emphysematous gastritis
—, secondary to ingestion of Coca Cola (A) . . . 304
Endoprosthesis
—, biliary, in bile duct obstruction . . . 70
Endorectal ultrasonography
—, in preoperative staging of rectal cancer (A) . . . 406
Endoscopic retrograde cholangiopancreatography
—, anatomical variation of pancreatobiliary ducts studied by . . . 145
—, imaging of complications of . . . 150
—, usefulness in infants and small children (a) . . . 407
Endoscopic ultrasonography
—, horizontal extent of gastric carcinoma assessed by (A) 404
—, of choledochal cyst . . . 29
—, of pancreatic endocrine tumors (A) . . . 102
—, preoperative staging of carcinoma of ampulla of Vater and common bile duct by (A) . . . 307
—, residual tumor infiltration after esophageal cancer treatment detected by (A) . . . 304
Endoscopy
—, correlation of symptoms of metastatic tumors to upper gastrointestinal tract with (A) . . . 197
Esophageal carcinoma
—, endosonographical detection of residual tumor infiltration after treatment of (A) . . . 304
—, in Barrett's esophagus (A) . . . 100
Esophageal lymphoma
—, in AIDS patients . . . 223
Esophageal surgery
—, complications of . . . 13
Esophagitis
—, bacterial, giant ulcers caused by . . . 225
Esophagogastrectomy
—, cervical anastomotic leak and stricture formation after (A) . . . 100
Esophagopleural fistula
—, diagnosis of . . . 10
Esophagus
—, Barrett's, columnar epithelium and (A) . . . 196
—, Barrett's, squamous carcinoma in (A) . . . 100
—, cervical web associated with patch of heterotopic gastric mucosa . . . 227
—, diagnostic factors in gastric cancer involving (A) . . . 404
—, dysmotility and reflux in . . . 220
—, giant ulcers in, after chemotherapy . . . 225
—, perforation of (A) . . . 10, 196
—, perforation of, therapy for (A) . . . 100
—, radionuclide transit test of . . . 220
—, surgically isolated, mucocele of . . . 13
Excitation spoiling fat suppression
—, compared with spin echo . . . 56
Extracorporeal shock-wave lithotripsy
—, gallbladder function after . . . 325
Fluoroscopy
—, decline in use of . . . 2
Focal nodular hyperplasia
—, of liver, radiologic findings of . . . 32
Focal periportal steatosis
—, of liver, US and CT studies of . . . 39
Gadolinium-DTPA
—, contrast enhancement of gastrointestinal tract using 215
Gallbladder
—, cholescintigraphy of . . . 325
—, function after extracorporeal shock-wave lithotripsy 325
Gallbladder disease
—, significance of wall thickness in (A) . . . 200
Gallstones
—, computed tomography of (A) . . . 102
—, gallbladder function before and after ESWL treatment for . . . 325
Gastric carcinoma
—, esophageal involvement in (A) . . . 404
—, horizontal extent of assessed by endoscopic ultrasonography (A) . . . 404
—, pathology and prognosis of (A) . . . 197
Gastric emptying
—, magnetic resonance imaging of (A) . . . 197
Gastric liposarcoma
—, computed tomography of . . . 232
Gastric mucosa
—, heterotopic, associated with cervical esophageal web 227
Gastroesophageal reflux
—, detected by radionuclide esophageal transit test . . . 220
Gastrointestinal tract
—, magnetic resonance imaging of . . . 205, 211, 215
—, metastatic tumors to (A) . . . 197
—, nonsteroidal anti-inflammatory drugs and damage to (A) . . . 196
—, perforation of . . . 318
—, perforation of, in abdominal trauma (A) . . . 101
—, uremia and (A) . . . 404
Gastropathy
—, portal hypertensive, in cirrhosis patients (A) . . . 100
Helminthoma
—, sonographic diagnosis of . . . 274
Hematoma
—, spread of, in small bowel mesentery . . . 109
Hepatic artery
—, cirrhosis and resistive index of . . . 61
Hepatic cavernous hemangioma
—, percutaneous needle biopsy of (A) . . . 406
Hepatic mesenchymal sarcoma
—, magnetic resonance imaging findings . . . 176
Hepatocellular carcinoma
—, alcoholic cirrhosis and . . . 344
—, biliary endoprosthesis in bile duct obstruction secondary to . . . 70
—, computed tomography of . . . 247
—, fatal liver necrosis following percutaneous ethanol injection for . . . 357
—, magnetic resonance imaging of . . . 247
—, sclerosing, radiologic findings of . . . 347

—, T-factor in . . . 247
—, ultrasonography of . . . 247
—, with or without cirrhosis . . . 168
Hiatal hernia
—, achalasia and . . . 7
Hirschsprung's disease
—, evaluation of mortality and long-term function (A) . . 199
—, long segment (A) . . . 200
Hydatid cyst
—, hepatic, spontaneous duodenal fistula due to . . . 234
Hydronephrosis
—, computed tomography diagnosis of . . . 82
Ileorectal anastomosis
—, rectal cancer risk in older patients with (A) . . . 305
Ileum
—, inflammatory fibroid polyp of . . . 363
—, MRI after air distention of . . . 211
Intestinal lymphangiectasia
—, ultrasonography of . . . 27
Intestinal malrotation
—, midgut volvulus as complication of (A) . . . 405
Intestine
—, hemorrhage in . . . 265
—, obstruction, CT whirl sign . . . 288
—, peritoneal fluid in children with intussusception in . . 277
Intraabdominal hematomas
—, percutaneous drainage of . . . 313
Intrahepatic duct
—, carcinoid tumor of . . . 242
Intrahepatic splenosis
—, liver tumor mimicked by . . . 156
Intraperitoneal hemorrhage
—, peliosis of spleen with . . . 283
Intussusception
—, diagnosis by posteroanterior stress proctography . . . 136
—, peritoneal fluid in children with . . . 277
—, plain abdominal film in (A) . . . 101
—, sonographic detection and reduction of . . . 277
—, sonography in diagnosis and management of (A) . . . 101
Kidney
—, colic, abdominal aortic aneurysms presenting as (A) 308
—, interventional procedures . . . 186
—, MRI of infarction in (A) . . . 308
—, radiographic evaluation of blunt trauma (A) . . . 201
—, streak artifact during contrast-enhanced CT of . . . 180
Kidney disease
—, computed tomography of . . . 82
—, in hemodialysis patients (A) . . . 201
Kidney tumor
—, in young adults (A) . . . 308
Large bowel obstruction
—, acute contrast enema and (A) . . . 198
Liver
—, angiography of . . . 168
—, bacillary angiomatosis of . . . 336
—, blunt injuries to . . . 102
—, cirrhotic, adenomatous hyperplastic nodules in . . . 50
—, computed tomography of . . . 39, 168
—, computed tomography of blunt injuries to (A) . . . 102
—, Doppler sonography of . . . 61
—, fatal necrosis of . . . 357
—, focal nodular hyperplasia of . . . 32
—, focal steatosis of . . . 39
—, MR imaging of traumatic lacerations of . . . 253
—, parenchymal changes after transcatheter arterial embolization therapy for hepatoma . . . 352
—, pathologic correlation with imaging techniques of . . 329
—, periportal halo around . . . 42
—, small nodules, ultrasonography of . . . 47
—, sonography of . . . 360
—, traumatic lacerations of . . . 253
—, ultrasonography of . . . 39
Liver biopsy
—, right internal jugular vein catheterization for . . . 360
Liver complication
—, bile leakage following biopsy in transplantation . . . 258
—, biliary strictures complicating (A) . . . 200
Liver cyst
—, MR imaging of intracystic hemorrhage of . . . 164
Liver disease
—, periportal halo as CT sign of . . . 42
—, radiological findings of human fascioliasis . . . 261
Liver neoplasms
—, comparison of dynamic infusion and delayed CT, US, and palpation in diagnosis of (A) . . . 305
—, computed tomography of . . . 247
—, fatal, following percutaneous ethanol injection for hepatocellular carcinoma . . . 357
—, Hodgkin's and non-Hodgkin's, sonography of . . . 339
—, magnetic resonance imaging diagnosis of (A) . . . 306
—, magnetic resonance imaging findings . . . 56, 176, 247
—, management of . . . 50
—, radiologic findings of . . . 347
—, Thorotrast induced . . . 78
—, ultrasonography of . . . 247
—, with and without cirrhosis . . . 168
Liver transplantation
—, portal vein thrombosis at (A) . . . 306
Liver tumor
—, computerized tomographic portography in patients with (A) . . . 306
—, intrahepatic splenosis mimicking . . . 156
—, MRI findings of mesenchymal sarcoma . . . 176
Localizer
—, ultrasonic detection of liver nodules with aid of . . . 47
Lymphoma
—, comparison of CT and barium enema in treating . . . 376
—, spread of, in small bowel mesentery . . . 109
Lymphoma, hepatic
—, Hodgkin's and non-Hodgkin's, sonography of . . . 339
Magnetic resonance imaging
—, assessment of T-factor in hepatocellular carcinoma by 247
—, comparison of techniques in . . . 56
—, contrast-enhanced, of kidney infarction (A) . . . 308
—, gradient echo, regenerative nodules in hepatic cirrhosis detected by (A) . . . 102
—, of abdomen . . . 205, 211, 215
—, of adenocarcinoma of rectum, after treatment (A) . . 199
—, of adrenal lymphoma . . . 95
—, of bladder hemangioma . . . 97
—, of bowel obstruction . . . 131
—, of focal nodular hyperplasia of liver . . . 32
—, of gastric emptying (A) . . . 197
—, of gastrointestinal tract after air distention . . . 205, 211
—, of hemorrhage of hepatic cysts . . . 164
—, of hepatic mesenchymal sarcoma . . . 176
—, of liver, pathologic correlation with . . . 329
—, of liver lesions . . . 56
—, of liver tumor . . . 156
—, of peritoneal ligaments and mesenteries . . . 126
—, of prostate . . . 399
—, of sarcoidosis . . . 159
—, of sclerosing hepatocellular carcinoma . . . 347
—, of space-occupying lesions of liver (A) . . . 306
—, of traumatic hepatic laceration . . . 253
—, of ulcerative colitis . . . 371

—, of ureteral obstruction 88
—, with STIR technique, for local staging of bladder neoplasms (A) 308
Meckel's diverticulum
—, angiographic findings of 15
Mediastinal mass
—, CT diagnosis of 13
Mesentery
—, magnetic resonance imaging of 126
—, small bowel, spread of disease via 109, 117
Mesentery neoplasms
—, cecal volvulus, CT whirl sign of 288
—, computed tomography of 286
—, ultrasonography of 280
Micturating cystourethrogram
—, in children, need for preliminary film prior to 191
Mullerian duct cyst
—, associated with unilateral renal agenesis 193
Myeloma, multiple
—, pancreatic plasmacytomas in patients with 323
Myolipoma
—, uterine, computed tomography and ultrasonography of 402
Nonsteroidal anti-inflammatory drugs
—, appendicitis in patients over 50 and (A) 196
—, gastrointestinal damage associated with (A) 196
—, ischemic colitis associated with (A) 405
Pancreas
—, agenesis and pseudo-agenesis of 141
—, CT-guided needle biopsy of (A) 307
—, endocrine tumors in (A) 102
—, endoscopic ultrasonography of (A) 102
—, heterotropic, cystic dystrophy of gastric and duodenal wall developing in (A) 404
—, plasmacytomas in 323
Pancreatic cancer
—, cost-benefit analysis of workup for (A) 307
Pancreatic head
—, comparison of CT and angiography for tumor staging in (A) 307
Pancreatic pseudocyst
—, correlation of amylase concentration of and percutaneous evacuation of (A) 103
Pancreatic tumor
—, comparison of CT and angiography for staging of (A) . 307
Pancreatitis
—, atrophy of pancreas after 141
—, choledochal cyst and 29
—, role of cystic dystrophy in (A) 404
Parasites
—, *Fasciola hepatica*, in liver and bile duct 261
Pars nuda urethrae
—, radiographic appearance of, in voiding urethrogram . 393
Peliosis
—, of spleen with intraperitoneal hemorrhage 283
Pelvis
—, spread of disease in subperitoneal space of 117
Peptic ulcer
—, ultrasonographic and computed tomographic diagnosis of 318
Percutaneous drainage
—, of infected intraabdominal hematomas 313
Percutaneous ethanol injection
—, fatal liver necrosis following 357
—, management of adenomatous hyperplastic nodules by . 50
Percutaneous needle biopsy
—, CT-guided, analysis of accuracy of (A) 307
—, of hepatic cavernous hemangioma (A) 406
—, ultrasound-guided, fine needle versus cutting needle (A) 406
Periportal edema
—, computed tomography diagnosis of 42
Peritoneal fluid
—, in children with intussusception, sonographic detection of 274
Peritoneal ligaments
—, magnetic resonance imaging of 126
Peritoneal mesothelioma
—, ultrasonography of 280
Peritonitis
—, tuberculous, ultrasonography of 23
Pneumatosis intestinalis
—, Crohn's disease and (A) 101
Polyps
—, in duodenal bulb (A) 405
—, inflammatory fibroid, of ileum 363
—, of rectum and sigmoid colon (A) 305
Portal vein
—, bile duct varices in hypertension due to cavernous transformation of (A) 306
Portal vein thrombus
—, liver atrophy and 352
—, ultrasound-guided biopsy of 344
Preliminary film
—, prior to micturating cystourethrogram in children . . 191
Proctography
—, intra-anal intussusception diagnosed by 131
Prostatic cancer
—, local extent of assessed by refined CT (A) 408
—, transrectal ultrasound screening for (A) 408
Prostatic sarcoma
—, magnetic resonance imaging of 399
Prostatic utricle
—, enlarged, associated with unilateral renal agenesis . . 193
Pyelonephritis
—, color Doppler sonography in (A) 308
Pyonephrosis
—, computed tomography diagnosis of 82
Radiology
—, esophagus 7
—, indications 2
—, referral patterns 2
Rectal cancer
—, endorectal ultrasound in preoperative staging of (A) . 406
—, risk in older patients with familial adenomatous polyposis and ileorectal anastomosis (A) 305
—, transrectal ultrasound before and after radiation therapy of (A) 199
Rectal carcinoids
—, diagnosis and treatment of (A) 199
Rectal neoplasms
—, correlation of CT and barium enema findings 376
—, staging of, with transrectal and transvaginal ultrasound 381
Rectum
—, intussusception of 131
—, mucinous carcinoma in (A) 305
—, polyps in (A) 305
—, ulcerative colitis involving 371
Renal arteries
—, three-dimensional time-of-flight MR angiography of (A) 407
Renal cell carcinoma
—, calcified tumor thrombus in patient with 290
Renal vein
—, invasion of, by transitional cell carcinoma of renal pelvis 390
Pelvis
—, renal, transitional cell carcinoma of 390

Retrograde pyelography
—, reaction to contrast media in (A) 407
Retroperitoneum
—, actinomycosis of 295
Roundworm obstruction
—, sonographic diagnosis of 274
Sarcoidosis
—, hepatic and splenic, ultrasound and MR imaging of . . 159
Seminal vesicle
—, cystadenoma of 298
Small bowel
—, pseudotumoral appearance of strictureplasty in . . . 366
Small bowel enema
—, chronic nonischemic disturbance of superior mesenteric venous blood flow diagnosed by 265
Small bowel mesentery
—, spread of disease via 109
Small bowel obstruction
—, water-soluble contrast radiology in management of (A) 304
Small bowel volvulus
—, as cause of small intestinal obstruction (A) 197
—, as complication of intestinal malrotation (A) 405
Small intestine
—, acute small bowel volvulus as cause of obstruction of (A) 197
—, bezoars in 271
Sonography
—, color Doppler, in pyelonephritis (A) 308
—, diagnosis and management of intussusception with (A) 101
—, image degradation after barium enema (A) 406
—, of acute acalculous cholecystitis in trauma patients (A) 306
—, of Hodgkin's and non-Hodgkin's hepatic lymphoma . 339
—, of liver, pathologic correlation with 329
—, staging of hilar cholangiocarcinoma by (A) 307
—, transjugular liver biopsy using 360
Spin echo
—, compared with excitation spoiling fat suppression . . 56
Spinal fusion
—, radiologic treatment of urinoma secondary to 292
Spleen
—, abscesses in, imaging of (A) 307
—, peliosis in 283
—, ultrasound-guided aspiration cytology of (A) 103
Splenomegaly
—, ultrasound and MR imaging in 159
Steroids
—, side effects 10
Stomach
—, compression filming of 320
—, computed tomography of 232
Strictureplasty
—, postsurgical appearance of 366
Subperitoneal space
—, spread of disease via 109, 117
Testes
—, bilateral retrovesical location of impalpable undescended 301
Thorotrast
—, ruptured hepatic angiosarcoma induced by 78
Thrombosis
—, of mesenteric vein 265
—, of portal vein at liver transplantation (A) 306
Transcatheter arterial embolization
—, liver parenchymal changes after 352
Transhepatic cholangiography
—, of complications of laparoscopic cholecystectomy . . 150
Transitional cell carcinoma
—, of renal pelvis, invasion of renal vein by 390
Tuberculosis
—, genitourinary, antegrade balloon dilation and ureteral stenting used for 186
—, ultrasonography of 23
Tumor thrombus, calcified
—, in inferior vena cava 290
Ultrasonography
—, abdominal, as indicator for laparotomy in trauma (A) 408
—, abdominal, before laparoscopic cholecystectomy (A) 406
—, assessment of T-factor in hepatocellular carcinoma by 247
—, blunt abdominal trauma evaluated by (A) 408
—, compared with cholangiography 66
—, compared with other techniques in diagnosis of liver metastases (A) 305
—, endorectal, in preoperative staging of rectal cancer (A) 406
—, isolated gastric varices detected by 229
—, management of adenomatous hyperplastic nodules in cirrhotic liver by 50
—, of ampulla of Vater 237
—, of bezoars in small intestine 271
—, of cystadenoma of seminal vesicle 298
—, of focal nodular hyperplasia of liver 32
—, of focal periportal liver steatosis 32
—, of gastric perforation caused by ulcer 318
—, of intestinal lymphangiectasia 27
—, of liver, with aid of hookwire localizer 47
—, of pancreatic plasmacytomas 323
—, of peritoneal fluid in children with intussusception . . 277
—, of peritoneal mesothelioma 280
—, of renal cystic disease and carcinoma in hemodialysis patients (A) 201
—, of roundworm obstruction 274
—, of sarcoidosis 159
—, of spleen with peliosis 283
—, of tuberculous peritonitis 23
—, of ureteral obstruction 88
—, of uterine myolipoma 402
—, staging of hilar cholangiocarcinoma by (A) 307
—, transrectal, of rectal cancer before and after radiation therapy (A) 199
—, transrectal, prostatic adenocarcinoma screened by (A) 408
—, transrectal, rectal carcinoma staged by 81
—, transvaginal, rectal carcinoma staged by 381
Ultrasound-guided aspiration
—, of spleen (A) 103
Ultrasound-guided biopsy
—, of portal vein system thrombus 344
Uremia
—, gastrointestinal tract in (A) 404
Ureter neoplasms
—, radiologic findings of 88
Urethra
—, congenital anterior diverticulum of 396
—, voiding urethrogram of 393
Urethrography
—, of pars nuda urethrae 393
—, of urethra 396
Urinary tract
—, magnetic resonance imaging of 97
—, tuberculous stricture of 186
Urinary tract obstruction
—, diagnosis of 88
Urinoma
—, secondary to surgical spinal fusion 292
Urokinase
—, used in percutaneous drainage of intraabdominal hematoma 313

Uterine myolipoma
—, computed tomography and ultrasonography of 402
Varices
—, bile duct, portal vein hypertension and (A) 306
—, isolated gastric, ultrasound detection of 229
—, mesenteric, diagnosed by small bowel enema 265
Vein
—, calcified tumor thrombus in 290
—, hepatic, correlation of imaging and pathology of . . . 329
—, portal, liver atrophy and thrombus of 352
—, portal, ultrasound-guided biopsy of thrombus of . . . 344
Vein, mesenteric
—, small bowel enema and diagnosis of disorder in . . . 265
—, thrombosis of 265
Vitelline artery
—, angiography of 15
